## Industry News

### The Calm Before the Supply Chain Storm

The Coronavirus may cause numerous logistics bottlenecks. Following factory closures, Chinese Importers say that production should start slowly ramping up in February and March. Air freight rates out of China could leap by 300-400% once production is fully back online and before belly traffic returns to the country. Read more [here](#).

### USMCA Ratification Delayed in Canada

The United States-Mexico-Canada Trade Agreement hasn't yet been ratified in Canada. Opposition groups in Parliament have raised questions about the deal's labor rights language, echoing concerns that U.S. lawmakers made that delayed the deal's passage through Congress. Read more [here](#).

### Tech Tip: Move Text without Copy-Paste Command

In a Word document, It is very common to use the Cut-Paste (Ctrl-x Ctrl-v) workflow to move text from one location to another, but there's an alternate way as well.

- Highlight any block of text, press F2
- Then place the cursor at the spot where you wish to move that text.
- Press Enter and the selection will be moved.
